Different types of languages are spoken by people from different regions but most important thing is any language, when spoken should be spoken correctly. Since, English is a universal language and we want

our children to be proficient in speaking it and for this we need your full cooperation and support. We would appreciate if you adhere to the following points:

Speak with your child in English.

Read out story books with big illustrations.

Emphasize more on phonic sounds.

Teachers are trying to encourage the children to use simple words, phrases and sentences like-
